REVITALISING TINT MASK

REGENMASK

Several studies confirm what the Sonoran's Desert Indians knew since thousands years ago about the properties of the jojoba oil, which are extremely efficacious for the care and the beauty of the hair. It has a strong penetrating power due to the linear chemical structure of its molecule and to the ability of restoring the natural Ph of the hair. It fights against the collagen and elastic fibres atrophy's process and restores the scalp and the hair's elasticity and softness. The jojoba virgin liquid wax is harmless for the skin and it has been demonstrated by different researchers.

[GB] CHARACTERISTICS
It revitalizes and intensifies the coloured hair tints and hides the first white hair. It can be applied after each shampoo both on coloured or bleached hair for keeping the colour or emphasizing the tints. It moisturizes, brightens, protects and gives stronger, brighter and healthy hair. Quaternary base formulation highly conditioning with protective film action enriched by highly moisturizing and nourishing ingredients which give a new brightness to the hair and revitalize the colour. It contains JOJOBA OIL and CERAMIDS, substances that nourish and re-construct the hair from inside.

DIRECTIONS: Wash the hair (it is suggested GENTLE BATH of EUDERMIQUE Line) and towel it. Wear gloves and apply 8-10 quantity of cream with a comb or with the hands. Comb the hair and let it process from 3 to 5-6 minutes. Rinse abundantly. The reds shades are very intensive and must be treated by professional people only. Do not apply on scalp. If the skin is stained wash it with a cotton flock wet with water and shampoo.
